I'm a sucker Yui Horie's voice, she's an angel and Nepgear will always be no.1 Girl in my heart Software is early access and can be very time consuming to use the Free Camera Feature. Some issues with dance syncs with this Nepgear package but ultimately

not too noticable cause her mouth is 2D. Edit: It's value if you are a Neptunia fan, and don't mind working a bit extra to get a smooth-like dance and video.
